James Halliday

Halliday Wine Companion 2018, August 2017

This is radically different to its DJL sibling, the fermentation straightforward, power, drive and complexity deriving from the fruit composition (63% sauvignon blanc, 35% semillon, 2% muscadelle), and its pronounced mineral acidity. For those who dislike Marlborough sauvignon blanc and US derivatives.

Matthew Jukes

100 Best Australian Wines 2017

The Exmoor brand has another white worthy of your attention and it is the 2016 Exmoor Sauvignon Blanc Semillon. My note for 100 Best, when I am scribbling away at tastings, is a 100 in a circle. I wrote this next to this wine's name before I noted down any descriptors such as its obvious appeal. With some sneaky exoticism over the citrus core, this will appeal to fans of cutting edge white wine and it is staggering value, like its Exmoor Chardonnay teammate.
